Course Objective

The activities carried out in the workplace experience course will provide candidates with various skills that will enable them to become an experienced employee. The students' progress in understanding the future profession and gaining the competencies constituting the profession will be evaluated by the university instructors who are in close cooperation with them and the application trainers and mentors who have gained experience in their work.

Learning Outcomes

The students who succeeded in this course will be able;

- 1. To suggest at least five accepted ideas for workplace based on their observations and experience.
- 2. To have the thesis proposal accepted by the workplace managers and the department, on the condition that the graduation thesis is related to at least one problem of the company and the company where he/she has workplace experience.
- 3. To participate as an observer in the negotiations of the company with which he has work experience outside the workplace.
- 4. To form a business team and determine the performance requirements of the team.
- 5. To offer opinions and suggestions about technologies used in the workplace.
- 6. To put forward opinions/opinions on the strategic plans of the workplace.
- 7. To make business-related correspondence in Turkish and/or English.
- 8. To know and apply ethical rules in their work.
- 9. To presenting a report to the senior management that will raise awareness in the workplace on sustainability

Course Outline

Students make observations and experience in the workplace one day of the week. Students take this course in business environment. The tasks and activities of the vocational candidates in this course should provide them with the opportunity to observe experienced superiors and workplace trainers on-the-job, to work individually with the students, even if they are limited.

Exams: The exams aim at assessing various dimensions of learning: knowledge of concepts and theories and the ability to apply this knowledge to real-world phenomena, through analyzing the situation, distinguishing problems, and suggesting solutions. The written exams can be of two types, i.e. open-ended questions, which can also be in the form of problems or multiple-choice questions. The case could also be carried to the Dean's Office for additional disciplinary action.

Assignments: Quizzes and Homework (Assignments) might be applicable. Scientific Research Ethics Rules are very important while preparing assignments. The students should be careful about citing any material used from outside sources and reference them appropriately.

Missed exams: Any student missing an exam needs to bring an official medical report to be able to take a make-up exam. The medical report must be from a state hospital.

Projects: Not applicable

Attendance: Attendance requirements are announced at the beginning of the term. Students are usually expected to attend at least 70% of the classes during each term.

Objections: If the student observes a material error in his/her grade, he/she has the right to place an objection to the Faculty or the Department. The claim is examined and the student is notified about its outcome.
